SUMMARY

Electrical And Electronics Engineering student developing a solid understanding of Electrical System design, control systems, Power Systems, trouble shooting , Electrical Maintenance and circuit Simulation. Passionate about industrial automation, PLC Programming, Ev Technology. Seeking entry-level roles where I can grow my technical skills and contribute to impactful engineering projects.

EDUCATION

Bachelor of technology(B.Tech)- Electrical and Electronics Engineering Expected 2026
Bonam Venkata Chalamayya Engineering College **CGPA:** 8.74

Diploma - Electrical and Electronics Engineering 2020 - 2023
Government Polytechnic, Vijayawada **Percentage:** 72.9

SKILLS

Core Skills	Control Systems,Industrial Automation,Internet of things,Electric vehicle
Simulation tools	MATLAB,AutoCAD Electrical,Simulink,PLC and SCADA Programming,Arduino IDE
Languages	Python,Java(basic)

INTERNSHIPS

Internship Trainee-33/11kv Substation Dec 2022 – Jun 2023
Andhra Pradesh Central Power Distribution Corporation (APCPDCL) *Ring road, Vijayawada*

- Gained hands-on experience in power distribution, transformer operation, and substation maintenance.
- Learned practical aspects of load management, fault detection, and electrical safety procedures.

Intern – Embedded Systems and IoT May 2024 – Jul 2024
Blackbucks (in collaboration with APSCHE) — Online

- Gained hands-on experience in microcontroller programming (Arduino/ESP32) and sensor integration.
- Enhanced understanding of embedded C programming, Integration IOT with python

Intern-Electric Vehicle Technology May 2025 – Jun 2025
SkillDzire — Online

- Gained knowledge of EV architecture, battery management systems (BMS), and charging infrastructure.
- Understood basics of power electronics in EVs and their role in sustainable transportation.

CERTIFICATIONS

- **MathWorks** - Completed MATLAB OnRamp self-paced online training offered by MathWorks(July 2025)
- **LinkedIn Learning** - Completed Become a PLC Developer Certification(March 2025)
- **Alison** - Completed Master PLC Programming Certification(March 2025)

EXTRACURRICULAR ACTIVITIES

- Active Member, Institute of Electrical and Electronics Engineers (IEEE), contributing to technical events, workshops, and knowledge-sharing sessions.
- Participated in a hands-on workshop on simulation tools for electrical engineering conducted by Zercon Solutions; gained experience in industry-standard software for circuit simulation, analysis, and design.
- Participated in a hands-on workshop on IoT and Drone Technology. Developed skills in drone programming, IoT sensor integration, and wireless communication protocols.
